The Past Is Written on Your Face | Psychology Today UK

In the past 2 million years, however, humans have started using tools to break down and cut our food. And as we've learned to process and cook it, our faces have begun to shrink. (Lacruz et al., Nature, 2019) "Softer modern diets and industrialised societies may mean that the human face continues to decrease in size," says O'Higgins.

A New Paper Reveals The Amazing Evolution of The Human Face

One of the most common signs of a past life is d é j à vu, suggests Dr. Weiss. D é j à vu is the sensation that you have met a person before or have visited someplace previously. This feeling may be a sign of a past life experience with a particular person or in a specific place.
