arteries. The blood travels through your arteries, which divide off into smaller and smaller blood vessels called capillaries.

How your heart works – Heart and circulatory system ...

Online Library The Heart Of Power Health And Politics

The heart is an organ about the size of your fist that pumps blood through your body. It is made up of multiple layers of tissue. Your heart is at the center of your circulatory system. This system is a network of

Online Library The Heart Of Power Health And Politics

blood vessels, such as arteries, veins, and capillaries, that carries blood to and from all areas of your body.
