The questions on this paper are designed to challenge you to think, not to guess, hence the penalty marking. You will gain more marks, and more satisfaction, by doing one question carefully than by guessing lots of answers. This paper is about solving interesting problems, not about lucky guessing.

Last year I participated in the UKMT Maths Challenge which is a yearly challenge at three levels open to secondary school students. It is a multiple-choice maths test that translates maths skills we are taught in lessons into real-life questions and problems to solve, which then gives you a result of either gold, silver or bronze.

The competition is aimed at students in schools and colleges based in the UK. Entries must be made by registered UKMT centres, not private tutors, individual students or their parents. You can order physical papers for your students via this page, online logins here or a combination of both (paper option is not available for overseas schools). The online and paper Challenge will both run from the 2nd-5th November and the results of both combined.
