University Physics with Modern Physics, 15th Edition
This is not a good way to learn Physics. Answers to selected exercises should be enough. One must understand the theory from the descriptions in chapter sections and the worked examples therein. After that one does the problems and checks if the a...

How to get all the solutions to Young and Freedman's ...
In August 1966 temperature profiles in the volcanic soil of Mt. Wrangell (4160 m) were measured and the boiling point was found in depths between 20 and 80 cm. The measurements indicated that at least 50 percent of the heat transport is caused by latent heat, the same order of magnitude, which is expected from theoretical considerations.
