Explained Wine Making Wine Making

Made

Wine can be made with any type of fruit, though grapes and berries are the most popular choices. Choose fruit at the peak of its flavor. It's best to choose organic fruit that hasn't been treated with chemicals, since you don't want these to end up in your wine. If possible, use fruit you've picked yourself or buy some from a farmer's market.

The two most important aspects of making wine are Cleanliness and Temperature. Firstly remember everything that comes into contact with the wine should be cleaned and sterilised (see below). Secondly maintain a constant temperature between 21-26 ° C (69-79 ° F). It is much better to be on the cool side and constant than hot one minute and cold the next.
